The video surveillance system is designed to collect video evidence for criminal investigations. It will not be monitored in real-time but will be valuable for deterring crime and for helping to identify and convict criminal activity in residential and commercial areas.

Proposed Project Elements:

- Cameras installed at major intersections in Lauderdale
- Cameras installed on selected local streets and commercial areas
- Storage system for evidence

Milestones

Conceptual Plan	April, 2017
Design/Bid Plans	October, 2017
Bid Award	December, 2017
Construction Begins	February, 2018

Project Status:

- Researching technical details for cameras and wifi transmission
- Beginning work on proposed locations and system design

Current Conditions

Cameras can be mounted on existing utility lines and will assist the Police Department in criminal investigations.
