

Citywide Police Camera System

New York and Miami are just two of the many cities that have installed Public Safety surveillance systems

Proposed Project Elements:

- Cameras installed at major intersections and entrances to Lauderhill
- Cameras installed on selected local streets and commercial areas
- Cloud-based storage system for evidence

Milestones

Review existing systems in South FL	April, 2017
Design/Bid Plans	October, 2017
Bid Award	December, 2017
Construction Begins	February, 2018

Project Funding	Budget	Purchase Orders	Expense To Date	Balance
Professional Services	\$ 400,000	0	0	\$ 400,000
Construction	2,200,000	0	0	2,200,000
Land Purchase	0	0	0	0
Contingency	400,000	0	0	400,000
Totals	\$3,000,000	0	0	\$3,000,000

Project Status:

- Researching technical details for using existing fiber with cameras and wifi transmission
- Project Team researching best practices and evolving technology

Project Team:

Lead: Doug Downs, MIS Manager

Allen Siegel, Dave Hennessy

GO Management: J. Martin Cala, Buddy Shelton, Sean Henderson, Yolan Todd, Don Giancoli

Current Conditions

Cameras can be mounted on existing utility lines and will assist the Police Department in criminal investigations.

The video surveillance system is designed to collect video evidence for criminal investigations. It will not be monitored in real-time but will be valuable for deterring crime and for helping to identify and convict criminal activity in residential and commercial areas.
