Development Review Applicability

Article IV – Development Review Requirements

Section 1.5. Administrative Review:

1.5.1. Applicability. The following improvements, modifications or change in ownership shall require administrative review through the site plan modification process:

- A. Sculpture, fountains, waterfalls and other landscaping improvements.
- B. Sidewalks, driveways, patios, awnings and covered walkways, canopies and temporary structures.
- C. Diminution in size of a structure.
- D. Canal bank improvements.
- E. Fences and walls.
- F. Single family new construction shall be consistent with Article IX, Community Appearance Committee.
- G. Revisions mandated by the Florida Building Code that trigger an administrative review as identified herein.
- H. Modifications to site plans; however, any modification to City-initiated developments exceeding thirty thousand dollars (\$30,000.00) shall require major review.
- I. American with Disabilities Act improvements.
- J. Dumpster enclosure improvements.
- K. Conversion to condominium ownership.
- L. Alteration of any existing building and structure shall be consistent with Article IX, Community Appearance Committee.
- M. Painting or staining of an exterior surface of any nonresidential building and structure shall be consistent with Article IX, Community Appearance Committee.

Notwithstanding the above, the Planning and Zoning Director has the discretion to allow administrative review through the development permit application or special events application process for sculptures, fountains, waterfalls, sidewalks, driveways, temporary structures, fences and painting and staining.

1.5.2. Application requirements. All applications for developments requiring administrative review shall comply with the following:

- A. The applicable provisions of the City Land Development Regulations.
- B. The applicable provisions of the City Comprehensive Plan.
- C. The Florida Building Code.

...

Section 5.1. – Approval of site plan; application for building and engineering permits:

No building permit except as provided in Article IV, Sections 1.5.1, 1.5.2 of the Land Development Regulations shall be issued for any construction or any alteration of existing land and water covered by this Section until such time as the proposed development has been approved by the Planning and Zoning Board of the City with respect to the conditions and criteria set forth in this Section. It shall be the duty of the Planning and Zoning Board to review the plans at a public hearing and shall approve or disapprove the proposed site plan or development plan.

CPTED PRINCIPLES

Crime Prevention Through Environmental Design

CPTED Principle #1 - Natural Surveillance

"See and be seen" is the overall goal when it comes to CPTED and natural surveillance. A person is less likely to commit a crime if they think someone will see them do it. Lighting and landscape play an important role in Crime Prevention Through Environmental Design.

CPTED Principle #2 - Natural Access Control

Natural Access Control is more than a high block wall topped with barbed wire. Crime Prevention Through Environmental Design or CPTED utilizes the use of walkways, fences, lighting, signage and landscape to clearly guide people and vehicles to and from the proper entrances. The goal with this CPTED principle is not necessarily to keep intruders out, but to direct the flow of people while decreasing the opportunity for crime.

CPTED Principle #3 - Territorial Reinforcement

Creating or extending a "sphere of influence" by utilizing physical designs such as pavement treatments, landscaping and signage that enable users of an area to develop a sense of proprietorship over it is the goal of this CPTED principle. Public areas are clearly distinguished from private ones. Potential trespassers perceive this control and are thereby discouraged.

CPTED Principle #4 - Maintenance

CPTED and the "Broken Window Theory" suggests that one "broken window" or nuisance, if allowed to exist, will lead to others and ultimately to the decline of an entire neighborhood. Neglected and poorly maintained properties are breeding grounds for criminal activity. A formal CPTED based maintenance plan will help you preserve your property value and make it a safer place.

CPTED Principle #5 – Activity Support

Increase the use of a built environment for safe activities with the intent of increasing the risk of detection of criminal and undesirable activities. Natural Surveillance by the intended users is casual and there is no specific plan for people to watch out for criminal activity.
